Step 5: To make the antennae, bend the pipe cleaner into the shape of a “V”, then curl the tips of the “V” down. Glue two small pom poms to the tips

Step 6: Glue the antennae to the inside of the toilet paper roll.

Step 7: Glue the googly eyes near the top of the toilet paper roll- remember if you do not have googly eyes you can draw your own! With your black marker, draw a mouth for your butterfly!
